

PET FIX SEMINARS

at the Animal Welfare League, Coombabah
with Dr. Cam Day

Dr Cam Day is a veterinary surgeon, an animal behaviour consultant and media presenter. He consults with dog, cat and bird owners on a daily basis, helping to solve problems such as aggressive and problem barking behaviours in dogs. He also helps his animal clients overcome profound fears, phobias and obsessive-compulsive disorders. Dr Day is bringing his popular seminars to the Animal Welfare League for the benefit of pet owners, trainers and industry professionals on the Gold Coast. In addition to helping pet owners of the coast, these seminars will assist AWL to raise funds for their animals in need, so show your support by booking one today.

Getting Good Behaviour from Problem Pets Thursday, 29th April 2010

6:30 - 9:30pm, Conference Room, AWL Coombabah, Gold Coast

Is your dog or cat driving you up the wall with its delinquent behaviour? Are you a pet-industry professional who wants to learn more about the science of humanely modifying cat and dog behaviour? Then this seminar is for you! Learn how to understand your dog and cats' behaviour and how to use positive, reward-based training to change challenging behaviours.

Help! My Dog is Home Alone and Unhappy! Thursday, 24th June 2010

6:30pm - 9:30pm, Conference Room, AWL Coombabah, Gold Coast

Is your dog stressed and anxious when left alone? Does your dog howl, destroy things, attempt to escape or self harm when you're not around? Then this seminar is for you! Learn why your dog is unhappy alone and discover solutions for boredom-related behaviours and separation anxiety.

\$55.00 per seminar

Includes:

1 month membership to Pethealth.com.au (valued at \$22)

Course notes and post-seminar information
